REVIEW

Results

The distribution approved by the Mara Delta Board of Directors ("the Board") for the six months ended 31 December 2016 of US\$6.12 cents per share exceeds the Company forecast growth on distribution of 2% to 4% on the prior year's full year distribution of US\$11.75 cents per share.

Rental income together with income from associates has increased by 24% versus the first six months of the 2016 financial year on the back of asset acquisitions in the latter half of the previous financial year. Further increases are expected as the newly acquired assets come on stream during the next quarter. The rental income increase included the impact of the US Dollar-based rental escalations. Operating costs (including properties in associated companies) decreased slightly to 25.9% (year ended 30 June 2016: 26.7%) for the first six months of the 2017 financial year.

The Company continues to focus on reducing its cost of borrowings with the weighted average cost of debt at 5.80% for the six months ended 31 December 2016 (year ended 30 June 2016: 6.22%). Mara Delta has initiated the process to obtain new debt mechanisms that provides a balance sheet hedge to the new Euro-based investments as well as further reducing the cost of debt. The Company's loan to value ratio at 31 December 2016 was 50.95%, up from 48.85% reported in June 2016.

- US\$6.3 million to be repaid out of capital raise.
June 2017 - US\$5.7 will be settled as part of a refinance package currently under negotiation.

Mara Delta's net asset value per share ("NAVPS") remained fairly constant from US\$163.27 cents per share at 30 June 2016 to US\$163.32 cents per share at 31 December 2016. The positive valuations of the assets in Mozambique and Mauritius of US\$4.3 million was offset by exchange differences in the value of the Anfa Place Shopping Centre in Morocco of US\$3.17 million (this movement is related to the Euro's decline versus the USD and its impact on the Moroccan Dirham). Other factors influencing the NAVPS growth was the issue of 11,080,471 shares at US\$1.54 (a 4.93% discount to NAVPS).

Portfolio vacancies remain at an overall portfolio vacancy of 2% as at 31 December 2016.

Despite the economic and liquidity challenges that Mozambique continues to face, Mara Delta's assets are performing as expected. Vacancies remained at zero and no bad debts have originated from the Mozambican portfolio. The Company remains confident about the long-term growth prospects in its Mozambican portfolio.
